

Creating a WordPress Website

- You are creating a page within an “existing” site
- Site will be created based off the press packet & press conference
 - For the company represented at the press conference
 - Graphics and photos will be provided to use on the website
- You will have 90 minutes to complete this portion of the practicum

Let's Practice

- Website will be started by being given login credentials
- Theme will be pre-selected
- You add the content provided in the design you choose
